

## MARIA BUETER

Maria Bueter (1996, Halberstadt, Germany) is based in Berlin, Germany. Her artistic expression is characterized by a naive technique driven by a potent sexual energy. This creative force gives rise to unconscious processes aimed at encapsulating intense and profound feelings within each piece. The result is a series of visually striking and symbolically rich artworks that delve into the pure impulses and instincts of the human animal. Bueter's technique serves as a vehicle for exploring the depths of these emotions, creating pieces that resonate with the raw power of primal forces. Her work, marked by its bold aesthetic, transcends conventional boundaries, inviting viewers to immerse themselves in a space where the unconscious is laid bare, revealing the profound connections between art and primal instincts in an unapologetic manner.
